f) Hold the RESET button on the device for 5 seconds until the beep sounds.

g) In the app, select Add Device (+ or Add Device icon).

h) Then select "Camera and lock" and "Camera (Wi-Fi)".

i) Click "**Next**" and you will then be prompted to enter your local WiFi network and its password (2.4Ghz band is supported). Once entered, confirm the action by clicking "OK".

j) Then click on the "Continue" button.

k) A **QR code** will now be generated, point it towards the lens of the device and wait until you hear a beep.

I) When the beep sounds, click on the
"beep" icon. Then wait for the device to pair with the app. Successful pairing is again indicated by an audible beep.
