USEFUL INFORMATION

If battery is fully discharged, charging will start 3 min after connecting the device into power supply. We recommend to format battery before you start using the device. Charge the device at least 10 hours and then let it discharged. Repeat three times. After device will be fully formatted, charge it for 8 hours, ideally. Please note, quality of mobile signal in the place of installation strongly affects quality of interception. When device is not rechargeable, re-insert SIM card or re-charge the device. **When call back function doesn't work properly, even if activated, re-insert SIM card**
